1. ABOUT THE REPORT

INTRODUCTION AND APPROACH TO ENVIRONMENTAL, SOCIAL AND GOVERNANCE AND REPORTING

Kaisun Holdings Limited and its subsidiaries (the **“Group”**) is pleased to present this Environmental, Social and Governance (**“ESG”**) Report (the **“ESG Report”**). This report involves environmental and social impacts, policies and initiatives of the Group to demonstrate its long-term commitment in ensuring that its activities, at all levels, are sustainable economically, socially and environmentally.

REPORTING PERIOD

The information in this ESG Report reflects the performance of the Group in the environmental and social aspects from 1 January 2022 to 31 December 2022 (the **“Reporting Period”**).

REPORTING SCOPE

The scope of the ESG Report covers the environmental and social performances of the principal operating activities of the Group’s headquarters in Hong Kong and subsidiaries in the People’s Republic of China (the **“PRC”**), which covers the Group’s three reportable segments, namely, coal mining business segment, consulting and media service business segment and corporate and investment business segment.

The Group will continue to assess the major ESG aspects and extend the scope of disclosures when and where applicable.

REPORTING FRAMEWORK

The ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the **“ESG Reporting Guide”**) as set out in Appendix 20 to the Rules (the **“GEM Listing Rules”**) Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the **“Stock Exchange”**). Information relating to the corporate governance practices of the Group has been set out in the Corporate Governance Report on pages 43 to 64 of the Group’s 2022 Annual Report.

During the preparation of this ESG Report, the Group has applied the following reporting principles:

Materiality: Materiality assessment was conducted to identify material issues for the Reporting Period, and thereby adopting the confirmed material issues as the focus for the preparation of the ESG Report. The materiality of issues was reviewed and confirmed by the board of directors (the “**Board**”) and senior management. For further details, please refer to the sections headed “Stakeholder Engagement” and “Materiality Assessment”.

Quantitative: The standards, methodologies and applicable assumptions used in the calculation of key performance indicators (“**KPIs**”) data were supplemented by explanatory notes.

Consistency: Unless otherwise stated, the preparation approach of this ESG Report is consistent with the previous year for comparison. If there are any changes in the scope of disclosure and calculation methodologies that may affect comparison with previous reports, explanations will be provided to the corresponding data.

BOARD STATEMENT AND ESG GOVERNANCE STRUCTURE

The Group conducts a top-down management approach concerning its ESG issues. The Board holds the overall responsibility for the Group’s ESG issues and sets out ESG management approach, strategy, priorities and objectives. The Board is also responsible for ensuring the effectiveness of the Group’s risk management and internal control systems and approving disclosures in ESG reports.

The Board has delegated authority to the management in the execution of the ESG policy, the management has the responsibility for collecting and analysing ESG data, monitoring and evaluating the Group’s ESG performance, keeping track of and reviewing the progress made against the Group’s ESG-related targets, ensuring compliance with ESG-related laws and regulations, assisting in conducting materiality assessment and preparing ESG reports.

2. COMMUNITY INVESTMENT

We are one of the few pioneers of the Belt and Road initiative in Hong Kong, we contribute to establish a strong bond between Hong Kong and the Belt and Road countries through a series of exchange and sharing activities.

In order to enhance people's understanding on the Belt and Road policy and some of the countries in these frontier markets, the Group, together with different respectable establishments collaboratively and regularly organize various conferences and seminars in relation to the Silk Road Strategy. Through these events, in addition to raising the awareness of the Belt and Road initiative to the public, we are also promoting cultural exchange between Belt and Road countries and Hong Kong.

Amid coronavirus, our effort to enhance Corporate Social Responsibility continued in 2022. We promoted cultural exchange between Hong Kong, Belt and Road Countries and Greater Bay Area in 2022 by supporting Silk Road Economic Development Research Centre. Major events in 2022 are as follow:

Seminar on “The Latest International effects on the Belt and Road Development and the integration of Hong Kong into the Greater Bay Area”, 8 June 2022

On 8 June 2022, Bank of Communication Hong Kong and the One Belt One Road Research Institute of Chu Hai College of Higher Education jointly organized a seminar on "The Latest International effects on the Belt and Road Development and the integration of Hong Kong into the Greater Bay Area" to a group of 30 commercial bankers of the bank. Our Chairman, Mr. Joseph Chan, spoke on the two topics and share with the audience his views and work experiences in both regions.

Our Chairman, Mr. Joseph Chan attended the Belt & Road Art & Culture Forum as Guest Speaker on the topic ‘New Opportunities from Belt & Road Initiative’, 23 September 2022

Our Chairman, Mr. Joseph Chan attended in "Belt & Road Art & Culture Forum" by Paper Communication Exhibition Services.

Apart from the above, our chairman, Mr. Joseph Chan and our colleague also supported the community by participating in COVID-19 volunteer work, including serving in vaccination centres and assisting in anti-pandemic supplies logistics:

More than 300 man-hours were devoted in the above activities.

3. ENVIRONMENTAL PROTECTION

The Group considers that a healthy environment is crucial to the well-being of human beings and every one of our society, through providing the foundation of a sustainable economy. Because of this, we, as part of the planet Earth, believe our planet deserves our best thinking and investment.

The Group continued to manage our environmental footprint via reducing our resource consumption and carbon emissions at all business levels throughout our operation.

In accordance with our environmental vision, the Group is committed to upholding high environmental standards to fulfil relevant requirements under applicable laws and regulations during the operation of our business. During the reporting period, no penalties had imposed upon the Group for violation of any environmental laws and regulations. The Group did not receive any complaints in relation to environment protection raised by the customers or other persons.

3.1 Energy Efficiency Management

Electricity consumption is one of the major contributions to our greenhouse gas emission and energy footprints. The Group adopted a number of energy-saving initiatives and efficiency practices to reduce greenhouse gas emission and conserve energy usage, encompassing:

- indoor temperature is maintained at an optimal level for comfort;
- LED lighting system is set in the offices;
- employees are encouraged to turn off the computers, monitors and other personal electronic devices before they leave the office;
- office machines such as copiers and TV monitors are set to turn off automatically after office hours;
- telecommunication system is encouraged to avoid unnecessary travel arrangement;
- signages are put on at appropriate areas to raise the awareness of energy saving.

3.2. Non-Hazardous Waste Management

We are as committed as ever to conserving precious resources, believing that every small step will make a difference. Besides implementation of energy saving initiatives in the office, the Group also promotes other eco-friendly measures to reduce disposal of non-hazardous waste in our operation.

Contributing to our efforts to reduce paper usage, we have encouraged paperless solution for the operation. The electronic information system is encouraged for documents storage, material sharing or internal administrative documents. It considerably improves operational efficiency while helping create a paperless operation system, thereby contributing to waste reduction and resource conservation. When using paper, employees are encouraged to use double-sided paper, black and white or recycled papers when printing or photocopying documents.

During the reporting period, the Group has generated approximately 20.74 tons (2021: 22.27 tons) of non-hazardous waste, approximately 0.08 tons per HK\$ million of revenue (2021: 0.14 tons per HK\$ million of revenue). The Group targets to reduce its non-hazardous waste intensity (per HK\$ million of revenue) by 5% by the year ending 31 December 2026, using 2022 as the baseline year.

3.3 Environmental Performance

Throughout our operation, we consider environmental stewardship as an essential component of our corporate responsibility and are therefore exceptionally committed to promoting environmental protection activities in harmony with economic development.

In accordance with the ESG Reporting Guide set out by the Hong Kong Stock Exchange, our environmental performance of “Energy Use and Emissions” and “Resource Use” during the reporting period are tabulated as below.

3.4. Climate Change

Climate change is one of the major challenges to businesses around the world in recent years. The Group has recognised the potential risks and impacts of changing climate that may adversely affect the Group business and financial performance. The Group may suffer from physical risks such as severe extreme weather events and the change of precipitation pattern, which may affect safety of the employees and Group's properties. The Group has developed mitigation measures to reduce the effect raised by extreme weather conditions such as typhoons on our employees, properties and our operation. For instance, in advance of expected extreme weather, the Group will release employees from work and ensure there is sufficient time for their journeys between living place and working premises. The Group also enhances the resilience of the physical structure of properties through design and proper maintenance.

Climate change may also pose transition risks to the Group due to the increase in operation cost because of changes in regulatory, technological and market landscape due to climate change, including the tightening of national policies and listing rules. The Group reviews updates to policies and regulations in regions it operates and engages with internal and external stakeholders to identify and understand potential climate-related risks, and will take comprehensive measures to deal with changing situations.

4. EMPLOYMENT AND LABOUR PRACTICES

4.1 Employment and Labour

At the Group, we owe much of our success to a team of dedicated and talented workforce. We recognise that our people essentially form the foundation on which we fulfil goals and continuously drive our business to new levels of milestone. We are determined to provide a desirable workplace, continuous training and prospective career opportunities to our staff-members, focusing on getting the very best from the staff-members and helping them achieve their goals throughout their career path.

In our employee inclusion, we strictly follow the relevant laws and regulations and our employment policies to select candidates based on skillsets, experience and expertise. Equality and diversity is highly respected in our corporate philosophy during the process of employment, remuneration, promotion and termination.

Our employees are mainly located in Hong Kong and the PRC, we safeguard the rights of our employees by strictly complying with the requirements of the Labour Law of Hong Kong, Labour Law of the PRC and employment regulations related to compensation, welfare, working hours, rest periods, anti-child labour and anti-force labour. We continue to participate in welfare schemes concerning pension insurance, unemployment insurance, maternity insurance, occupational injury insurance and medical insurance in accordance with the local regulations including the Regulations on the Administration of Housing Provident Funds and the Social Insurance Law of the PRC. In Hong Kong, we provide medical insurance, disability and invalidity coverage, maternity leave, Mandatory Provident Fund (MPF) Scheme, incentive and bonus to all

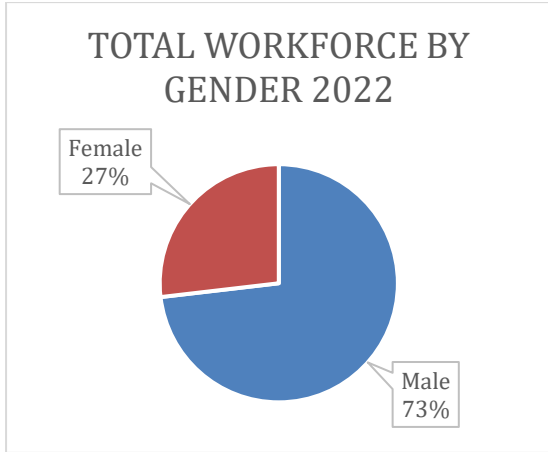

our applicable full-time employees. In addition, we strive to provide an inclusive work environment free from harassment and discrimination.

During the Reporting Period, to avoid the outbreak of COVID-19 in our work place, we provided sufficient supplies of personal protective equipment for our staff, and preventive measures were taken to ensure the health and safety of our employees, such as taking body temperature before staff are allowed into work premises including our offices and factories.

5 OPERATING PRACTICES

5.1 Supply Chain Management

As a responsible corporate citizen, one of our missions is to continuously integrate sustainability into our core business. In case we need to select our suppliers and contractors in the process of our business operation, we do not just consider economical and commercial factors in the tendering processes but whether they comply with all the applicable laws and regulations; safeguard workers' health and safety; and mitigate environmental impacts or not are also taken into account. In addition, the Group encourages all business partners to develop energy-saving and consumption-reducing policies in order to work together in our pursuit of sustainable development.

As the core of our business, our trading and supply chain management service team not only considers commercial benefits during the tendering processes, but also assess their track records in relation to compliance with legal, ethical and social aspects such as use of child and forced labour, workplace health and safety, hours of work, compensation, benefits and wages, mitigation of environmental impacts, workplace and product safety, protocols against sexual and gender discrimination, protocols against harassment and abuse.

During the Reporting Period, the Group had 102 suppliers and all of them are in China.

We have developed a vendor and supplier selection mechanism in which we require our potential suppliers to comply with all the applicable laws and regulations and confirm their compliance with respect to safety, environment and social aspects. To maintain a good corporate control and governance, inspection and assessments may be conducted by the Group if deemed necessary.

5.2 Anti-corruption

The Group established its anti-corruption and whistleblowing policy, for details, please refer to the Corporate Governance Report 2022 which included in the Annual Report 2022 of the Group.
