

Kaisun Energy Group debut eSports workshop

To enhance our corporate social responsibility, Kaisun Energy Group hosted its first eSports workshop on “The Social Impact of eSports” on 6 December 2017. Mr. Philip Ching, Kaisun’s CEO of New Economy Business (photo right 2) invited Mr. Frederico Rosario, Chairman of Grow uP eSports, (photo right 3) Mr. Fernando Pereira President of Grow uP eSports (photo left 3) and Mr. Lau Tin Chun Dennis, Director of Forger Tech (photo left 2) as the guest speakers. By discussing Health Management by youth during eSport participation, speakers provide practical tips for parents to engage in effective communication and emotion management with adolescents, so that eSport can have positive contribution as well.

The workshop was well received by the audience in particular the parents, as they valued the rare opportunity to meet with industry experts for them to understand eSports in a broader context.
