

Kaisun Holdings – Opening Ceremony for entering into Innovation and Technology Park in Tengzhou, Shandong for production of Mining Machineries

Tengzhou Kaiyuan, Kaisun Energy’s subsidiary , (note: Kaisun Energy is subsidiary of Kaisun Holdings) entered into Mo Zi Innovation and Technology Park. Over one hundred attendees including Tengzhou local government officials, management of Tengzhou industrial asset management company, project management team of Mo Zi Innovation and Technology Park, local elites attended the opening ceremony.

Mr. Joseph Chan, Kaisun Holdings’ Chairman, delivered the speech on the opening ceremony

Mr. Joseph Chan expressed his sincere thanks to Tengzhou local government officials, management of Tengzhou industrial asset management company, project management team of Mo Zi Innovation and Technology Park, all those working for this project and also the generous support by the local government and people. Mr. Chan mentioned that Tengzhou Kaiyuan will further expand the scope of business and strengthen cooperation with local government and business enterprises, further contributing to the economy of Tengzhou.

Tengzhou Kaiyuan Industrial Company

Mr. Chan explained that Mr. Lee, party secretary of Zhaozhuang city and Mr. Zhou, party secretary of

Tengzhou realized that Tengzhou Kaiyuan need more research space to cope with raising its products quality and production capacity when they visited Hong Kong last December, hence they recommended Tengzhou Kaiyuan to move into Mo Zi Innovation and Technology Park. With local government support, Tengzhou Kaiyuan moved into this high quality building within time frame of slightly over one month.

Mr. Fu Hongwei, Vice General Manager and Chief Engineer and Mr. Zhang Weihua, President of CEEC-Northwest Power Construction Corporation (International) (NWPC), and colleagues for this project of Kaisun Holdings attended the opening ceremony as well.

Kaisun Holdings

This year marked the 10th anniversary of Kaisun. Kaisun Holdings' focus its development on Belt and Road Initiative, and has been an active participant in Belt and Road, and become pioneer in Belt and Road initiative.
