

KAISUN ENERGY GROUP LIMITED**凱順能源集團有限公司****Kaisun Energy official visit to the Chinese Embassy of Tajikistan**

Earlier this month, delegates of Kaisun Energy Group Limited including our Chairman Mr. Joseph Chan Nap Kee (Photo Left) made an official visit to the Chinese Embassy of Tajikistan as part of Kaisun Energy's on site coal mines visit and the signing of the Letter of Intent with Xinjiang Coal Bureau in Tajikistan¹. The meeting was joined by representatives from both Kaisun Energy and the Chinese Embassy of Tajikistan including Ambassador Fan Xian Rong (范先荣大使) (Photo Right).

During the meeting (Photo), there were meaningful exchanges regarding the current Tajik national conditions and public sentiment and also Kaisun Energy's role as a Chinese resource company operating in Tajikistan. As the cooperation and economic ties between the Shanghai Cooperation Organization (Includes China, Kazakhstan, Kyrgyzstan, Russia, Tajikistan and Uzbekistan) continues to grow², Kaisun Energy believes that joint developmental efforts should not be limited on the national level but should also take place on the company level. Kaisun Energy hopes to participate and play a role in the economic development process in Tajikistan. All of the knowledge and insights that were gained during this Chinese Embassy visit will be valuable in Kaisun Energy's future business strategy formulation. Kaisun Energy is confident that both parties can develop and maintain a strong relationship through frequent communications and interactions. We are looking forward to the continue guidance and support in the future from Ambassador Fan and the Chinese Embassy staff.
